A YES on CHINA was a NO to LABOR

Dear Representative_____________________:

Speaking for 250,000 UNITE members across the country, and in particular your constituents, we want to express our deepest disappointment in your vote to grant China Permanent Normal Trade Relations. This vote clearly puts the interests of corporate America over the interests of working Americans. Your vote makes us question your commitment to worker rights, human rights, and religious freedom. Your vote may also endanger our jobs, and those of manufacturing workers across America.

We are proud to have led the fight against PNTR, but the battle for fair working standards doesn’t end here. Every single worker deserves a good job, a living wage and dignity in the work that they do. These are standards of fair trade, not the corporate-controlled free trade deal that passed. We will continue to fight for a global economy that sets standards for workers, consumers and the environment.
